

QMUL AI HACKATHON 2026

compose.

Turn any draft into a finished,
designed document, in minutes.

Somewhere between Word and Canva

Word

Easy to write in, but it comes out as a wall of text.

Compose

Write like in Word. Get a designed document like Canva, automatically.

Canva

Looks great, but every chart and layout is made by hand.

EASY TO WRITE

BOTH

DESIGNED TO READ

Import it. Let AI structure it. Edit it on the page.

1

Import

Paste text, or drop in a Word doc or PDF.

2

AI structures it

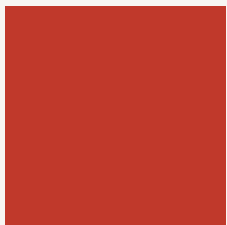

Headings, charts, tables and code listings, in your template's style.

3

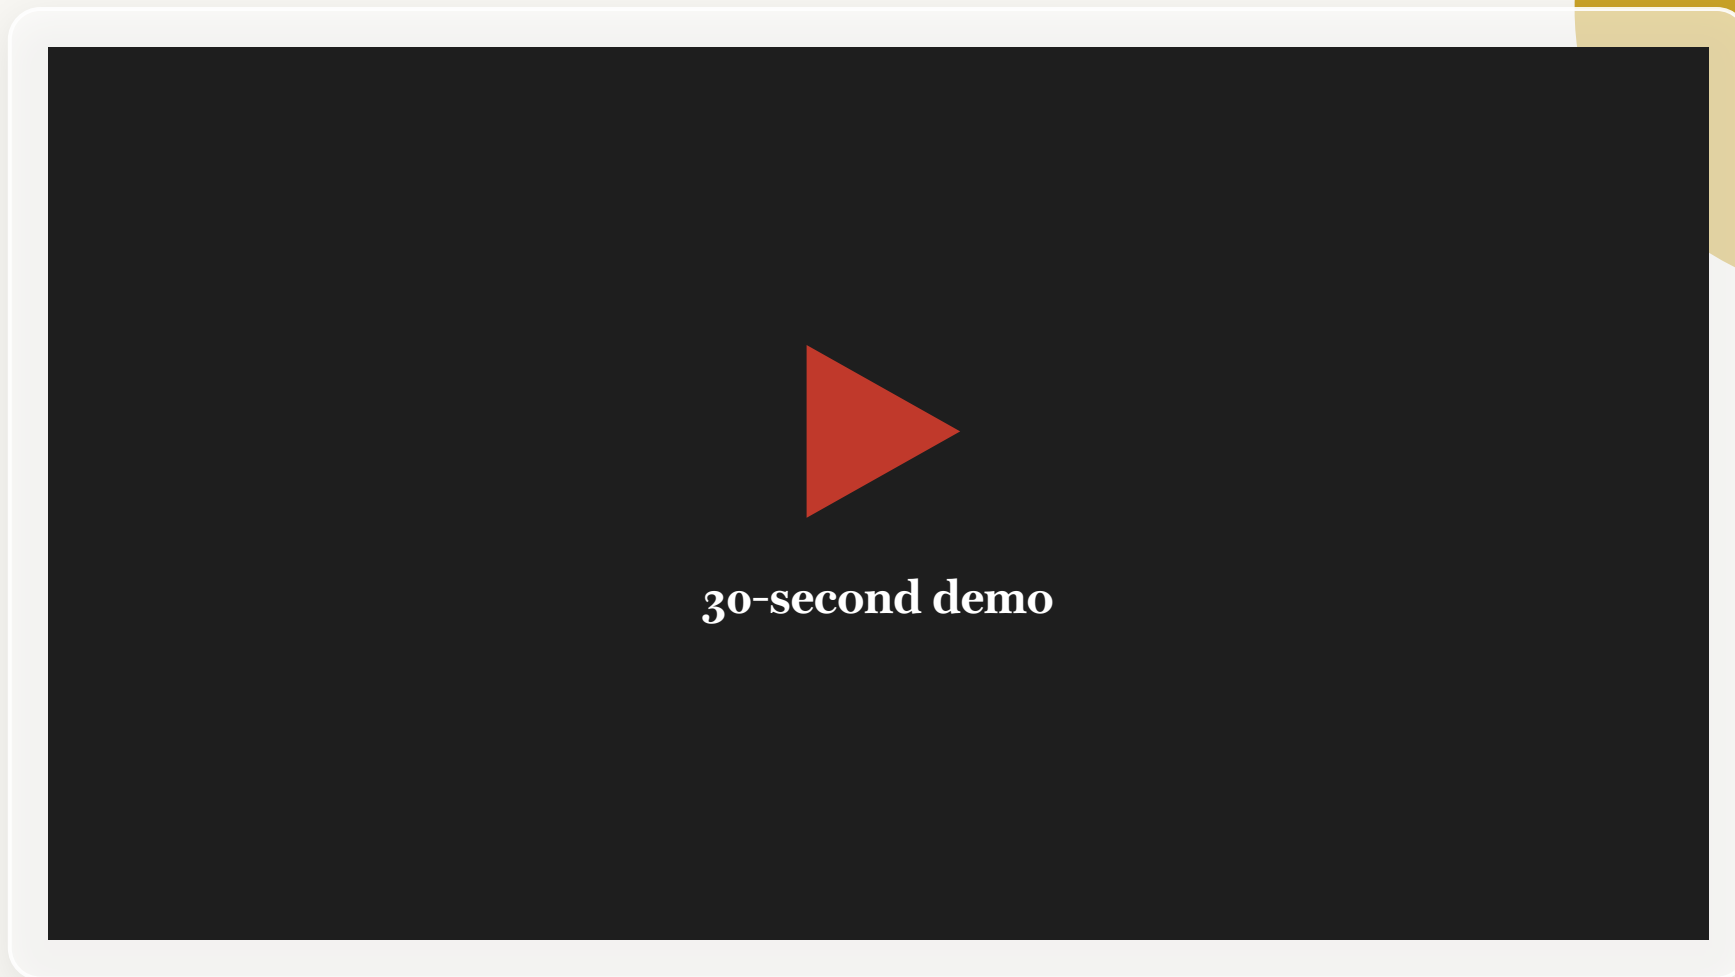

Edit on the page

Click any text to change it.
Export when you're done.

See it in action

compose.

Three steps. No learning curve.

Drop in a file

A PDF, a Word doc, or pasted text.

Drag in a chart

A gold line shows exactly where it will land.

AI fills it in

The numbers come straight from the paragraph above.

One editor, from first draft to final PDF

5

templates

23

elements

4

AI providers

3

outputs

Templates for every document

News, Finance, Research, LaTeX paper and Lab manual.

Web and print from one file

A web page, A4 pages and a LaTeX .tex, from the same document.

Reads your PDFs

Chapters, headings, code listings and figures come in already structured.

Any AI provider

Anthropic, OpenAI, Gemini, or a local model with Ollama.

compose.

From draft to design, in minutes.

THANK YOU
